NAETI CELEBRATES OVER 32 YEARS OF TRAINING EXCELLENCE!

New York State has enacted Mold Bill S3667D-2013. NAETI is approved to provide 4-Day Mold Assessment Consultant, 3-Day Mold Remediation Contractor and 2-Day Mold Worker Training. Upon successful completion of our DOL approved training curriculum, students are eligible to apply for the required NYS licensing which has been in force since January 1st, 2016.

Our training includes state of the art hands-on, PowerPoint presentation, and interactive training disciplines to fully cover all of the NYS DOL required material necessary to conduct Mold Assessment and Remediation in New York State. We are also approved to run the Assessment and Remediation Courses as a combo course. NAETI will be offering the 1/2 day refresher which is required every 2 years. Courses are currently scheduled at our facility in Ocean, NJ but we can also conduct training at your location for your convenience. **Please call us for customized group rates and on site training options.**

It is time to renew your Lead RRP Renovator Initial Training. The EPA has included two renewal options. Option 1: **Complete in classroom training including hands on training, which upon successful completion would be valid for a period of five (5) years.** Option 2: Complete on-line training without the hands-on component which will be valid for a period of only three (3) years. **Any students who complete this online re-certification course would have to complete a classroom refresher training in (3) three years not five (5) years.**

Call for customized Group Rates and On Site Training

The IICRC Water Damage Restoration Technician (WRT) is being conducted at our Ocean location October 10-12, 2017. Please register online or call for more information on this important certification for your complete disaster recovery portfolio!

Multi-Pathogen (Universal Precaution) Training. This course is based on OSHA's Interim Guidelines for Workers and Employers in Non-Healthcare/Non-Laboratory Settings. This course meets and/or exceeds OSHA's Interim guidelines in the cleaning and decontamination of pathogens on surfaces. The objective of this course is to ensure that workers tasked with cleaning surfaces that may be contaminated are protected from exposure, through lecture, discussion, and an extensive hands-on session students learn about protecting themselves with appropriate PPE*.

**Please note these general guidelines are not intended to cover laboratory or medical personnel who have direct contact with individuals with EHF.*

NAETI's staff of expert instructors travel extensively, both nationally and internationally, to provide customized, cost-effective, on-site training.

GO TO THE BEST...COME TO NAETI!

Register online at www.naeti.com or call (732)531-5571 OR (888)366-2384

I have read and accept NAETI's terms and conditions as stated below.

When registering for a refresher program, proof of initial training, all refresher training and state licenses must be provided in order to receive state renewal forms and certificates of completion. The only acceptable proof of NY approved training is the DOH 2832.

The student is responsible for all applicable fees in order to obtain licenses.

Course tuition includes: Comprehensive course manuals, fit testing with medical certification only (if applicable), Certificates of Completion, Student I.D. card (Photo required), if desired, and continental breakfast.

COURSE DATES ARE SUBJECT TO CANCELLATION

- Re-schedules and cancellations will be accepted up to 10 business days prior to the first day of class. Individuals canceling within 10 business days will be charged a \$100.00 non-refundable, non-transferable fee. Tuition is non-refundable to the individual canceling within five (5) business days prior to the first day of class. Re-scheduling will be considered on an individual basis. Students are responsible to make up any course time that they miss. NAETI reserves the right to charge for that make-up time.
- A fee of \$50.00 will be charges for any returned check.

Additional Training Locations through New York City College of Technology (NYCCT) are available in New York City. Call for NYC DOB Training opportunities.

**NAETI specializes in custom corporate training at our facility or at your site.
Please ask about our group rates and on-site training**

**Centrally located to NYC, Philadelphia, and Newark Airport
